MAKERS
(THE ETHICAL TOKEN)

White Paper

CHAIN: BASE CHAIN

EXECUTIVE SUMMARY

In the rapidly evolving world of cryptocurrencies, where new tokens emerge daily. The crypto space has recorded a significant and high number of users and participants. Anonymous transactions have been plagued by scams and security breaches, with fraudsters stealing huge amount worth of cryptocurrency assets every day, making it unbearable and unsafe for users, which is a glaring security gap in the crypto ecosystem. Therefore, the need for a token that would stand for good culture and ethical practices to emerge. Ensuring integrity in the crypto currency industry.., MAKERS represents an advocate for good culture and ethical practices on chain. A revolutionary cryptocurrency token on base chain aiming to achieve its mission. promoting best standard and good culture on chain, emphasizing ethical behavior, transparency, and community-driven equitable empowerment.

MAKERS aims to achieve a safe and secure atmosphere for all users in the digital space. However, instill confidence among users, providing its secured decentralized application Dexmaker.io, A token builder solution on base chain designed for users to simplify their creation, deployment and manage token launches with ease. Our mission is to create a sustainable and secured environment for all participants, promote trust and informed participation in the rapidly evolving world of cryptocurrencies.

Vision

MAKERS envisions a crypto ecosystem where ethical practices are the norm, and all participants can confidently and safely engage with digital assets. Our goal is to set new standards for transparency, security, and providing a safe platform for token creation and fair launches on Dexmaker.io. for the beginning.

Mission

Our mission is to establish a new standard of integrity and responsibility within the cryptocurrency space. By harnessing the transparency and security of the Base Chain. MAKERS is dedicated to promoting and advocate for ethical practices that protect and empower users. The token aims to build a robust community centered on trust, accountability, and ethical conduct, ultimately driving the adoption of secure and responsible blockchain technologies. MAKERS aspires to lead the way in creating a safer and more trustworthy ecosystem for all participants.

TOKENOMICS

Token Distribution

- [ ] Total Supply: 1 Billion
- [ ] Public Sale: 40% (4000,000,000
- [ ] Team and Advisors: 10% (100,000,000
- [ ] Development Fund: 20% (200,000,000
- [ ] Community and Marketing: 20%
- [ ] Reserve Fund: 10% (100,000,000

UTILITY

MAKERS tokens will be utilized for

Governance: Token holders can vote on key decisions affecting the ecosystem.

Staking: Users can stake MAKERS tokens to earn rewards and participate in securing the network.

Education Incentives: Rewards for participation in educational programs and initiatives.

Transaction Fees: Reduced fees for using MAKERS within partnered platforms and services.

Dapp Functionality: Access to the Dapp on Dexmaker.io for creating tokens and managing fair launches.

MAKERS DAPP (DEXMAKER.IO)

Dexmaker.io is a decentralized platform for MAKERS, designed to facilitate the creation of new tokens and ensure fair launch processes and best practices. This Dapp provides a user-friendly interface and robust security features to support token developers and the broader community.

Features

Token Creation: Simple and intuitive process for creating new tokens on the blockchain.
Fair Launch Mechanism: Tools to ensure fair distribution and prevent front-running or manipulation during token launches.
Smart Contract Templates: Pre-audited smart contract templates to streamline token deployment and enhance security.
Community Governance: Integration with MAKERS' governance model to allow the community to vote on key aspects of token launches.

Benefits

Accessibility: Lower barriers to entry for new token creators.
Equity: Ensuring fair and equitable distribution of new tokens.
Security: Enhanced security measures to protect both creators and participants.
Transparency: Clear and transparent processes for token creation and launch.

TRANSPARENCY

Governance Model

MAKERS employs a decentralized governance model where token holders have a say in critical decisions. This includes:

Proposal Submission: Any token holder can submit proposals for consideration.

Voting Mechanism: Transparent voting process to approve or reject proposals.

Implementation: Approved proposals are implemented by the core team and monitored by the community.

Financial Transparency

Regular financial reports and audits will be conducted to ensure transparency. This includes:

Quarterly Reports: Detailed reports on the use of funds, project progress, and future plans.

Independent Audits: Third-party audits to verify the integrity of financial statements and operations.

SECURITY

Protocol Security

MAKERS prioritizes the security of its protocol through:

- **Smart Contract Audits**: Regular audits by reputable third-party firms to identify and mitigate   vulnerabilities.

- **Bug Bounty Program**: Incentivizing the community to identify and report potential security issues.

User Security

To protect our users, MAKERS implements:
- **Two-Factor Authentication (2FA)**: Adding an extra layer of security to user accounts.
- **Cold Storage:** Storing the majority of funds offline to prevent hacking.
- **Education on Security Best Practices**: Providing resources to educate users on how to protect their assets.

COMMUNITY EDUCATIONAL EMPOWERMENT

Educational Programs
MAKERS is committed to educating the community through:
- **Online Courses**: Comprehensive courses covering blockchain technology, cryptocurrency basics, and advanced topics.
- **Workshops and Webinars:** Regular live sessions with experts to discuss current trends and best practices.
- **Educational Resources**: A library of articles, videos, and tutorials accessible to all community members.
Community Engagement
To foster a strong and informed community, MAKERS will:
- **Community Forums**: Platforms for discussion, support, and knowledge sharing.
- **Ambassador Program:** Recruiting and training ambassadors to promote MAKERS and educate others.
- **Incentive Programs**: Rewards for community members who actively participate in educational initiatives and contribute to the ecosystem.

ROADMAP

Q3 2024

- Token Launch and Initial Coin Offering (ICO): Launching the MAKERS token and conducting the ICO to distribute tokens to early investors and the public.
- Listing on Major Cryptocurrency Exchanges: Getting MAKERS listed on major exchanges to ensure liquidity and accessibility for traders.
- Launch of Educational Platform: Creating and launching a comprehensive educational platform to provide resources and courses for the community.

Q4 2024

- Implementation of Governance Model: Rolling out the decentralized governance model, allowing token holders to participate in decision-making processes.
- First Quarterly Financial Report and Audit: Publishing the first financial report and conducting an independent audit to ensure transparency.
- Introduction of Staking and Rewards Program: Launching the staking program where users can stake their tokens to earn rewards and contribute to network security.

Q1 2025

Compliance and Legal Measures
Ensure the project complies with relevant regulations, including AML and KYC requirement and providing clear legal documentation, including terms of service.
Privacy policies and disclaimers, to inform users of their rights and responsibilities.
Expansion of Educational Programs and Resources: Adding more courses, resources, and content to the educational platform.
- Establishment of Global Ambassador Program: Recruiting and training ambassadors from various regions to promote MAKERS and educate the local communities.

Launch of Bug Bounty Program: Initiating the bug bounty program to encourage the community to identify and report security vulnerabilities.

ROADMAP

Q2 2025 and Beyond

Continuous Development and Improvement of the Platform: Regular updates and improvements to the MAKERS platform based on community feedback and technological advancements.
- Regular Community Engagement Events and Updates: Hosting events, webinars, and AMA (Ask Me Anything) sessions to keep the community informed and engaged.
- Ongoing Audits and Financial Transparency Initiatives: Conducting regular audits and publishing financial reports to maintain transparency and trust.

CONCLUSION

MAKERS is dedicated to fostering an ethical practice, transparent, and secure cryptocurrency ecosystem. By prioritizing education, community involvement, and robust security measures, along with providing a tool for token creation and fair launches through Dexmaker.io, we aim to build a sustainable platform that empowers users and participants.

Join us on our mission to set new standards in the crypto market and drive positive change in the blockchain industry.
